

Economical generators for reliable job site power

This economical, yet rugged portable generator series is designed to fit every job site and every budget. These units provide hours of reliable job site power and performance. Ideally suited for construction, industrial, commercial, domestic and farm applications.

- Unique diversion trench fuel tank design for increased safety and user-friendliness
- All units feature a Wacker Neuson 4-stroke gasoline engine for reliable power
- A fully wrapped frame with heavy duty steel bars protects the generator under rugged job site conditions and superior performance shock mounts minimize vibration for longer machine life
- Superior performance shock mounts minimize vibration for longer machine life
- Installed with digital voltage, frequency and time display, and equipped with wheels and foldable handles for easy transport

MG5 Technical specifications

Dimensions

LxWxH	681 × 546 × 550 mm
Net weight (without fuel)	79 kg
Operating data	
Operating weight (fuel tank half full)	94 kg
Output performance (max.)	5.5 kW
Output performance (rated)	5 kW
Electrical system	
Voltage *	110 / 120 / 210 / 220 / 230 / 240 V
Frequency *	50 / 60 Hz
Engine / Motor	
Engine / Motor	air-cooled, 4-stroke, single cylinder with recoil and electric starter
Engine / Motor manufacturer	Loncin-188FD
Displacement	389 cm ³
Operating performance	8.2 kW
at rpm	3,600 rpm
Tank capacity (fuel)	25 I
Runtime	8 h

^{*} Voltage and frequency may vary according to the specifications of your region
