

# **NORM** ENGINEERING ANGLE BROOMS

Australian manufactured

The Norm Engineering angle broom is designed with a replaceable one-piece poly brush that is ideal for sweeping roadsides, sidewalks, factories, industrial areas, macadamia farms and for moving debris.

From inside the cab, the operator can adjust the angle of the broom depending on the task requirement.

- » Standard sizes - 1600mm, 1800mm, 2100mm & 2500mm (Custom sizes on request)
- » 25° Angle, either left or right
- » One piece poly brush (segments available)
- » Includes hoses & couplings - no extra plumbing required
- » Stand for easy lifting, transporting & storage

25° Angle both left and right

One piece poly brush

Stand for easy lifting, transporting & storage
