## Allgemeine Informationen zum Ersatzteilbuch

### Allgemeines

Bei der Bestellung von Ersatzteilen ist darauf zu achten, dass alle Angaben zur Maschine vollständig sind.

Dazu gehören die Modellbezeichnung, die Seriennummer sowie das Baujahr. Bei Bestellungen von Motor- bzw. Achsteilen werden außerdem der Typ und die Seriennummer der Komponenten benötigt.

Des Weiteren sind folgende Angaben notwendig: Materialnummer und Positionsnummer.

Die Seriennummer ist in den Fahrzeugrahmen eingeschlagen. Sie befindet sich außerdem auf dem Typenschild. Die Seriennummer muss vollständig angegeben werden.

Im Zuge der technischen Weiterentwicklung arbeiten wir ständig an der Verbesserung und Optimierung unserer Produkte. Aus diesem Grund ist es möglich, dass Abbildungen im Ersatzteilbuch von der tatsächlichen Ausführung abweichen können.

Wir behalten uns das Recht vor, jederzeit Änderungen an den Ersatzteilen vorzunehmen. Dies gilt sowohl für die angegebene Menge der Ersatzteile, als auch für die technische Ausführung. Um die neuesten Informationen zur Maschine zu erhalten, ersuchen wir um Kontaktaufnahme mit einem Vertragshändler.

Technische Angaben, Maße, Gewichte und angegebene Menge der Ersatzteile sind unverbindlich. Irrtümer vorbehalten.

Das Fahrzeug auf dem Titelbild kann Sonderausrüstungen (Optionen) aufweisen. Die Darstellung ist für die Ausführung nicht verbindlich.

Wacker Neuson ist ermächtigt, urheberrechtlich geschütztes Material, zum Beispiel der Firma Perkins Engines Company Ltd., zu publizieren.

Die im Buch angegebene Anzahl der Ersatzteile bezieht sich auf die an dieser Stelle verbaute Menge.

In diesem Ersatzteilbuch sind Optionen abgebildet, die für das Fahrzeug werksseitig erhältlich sind. Aus diesem Grund können auch Optionen abgebildet sein, mit denen ihre Maschine nicht ausgerüstet ist. Nicht alle abgebildeten Optionen sind in allen Ländern/Regionen verfügbar.

Optionen sind teilweise nachrüstbar. Beachten Sie jedoch, dass nicht alle Optionen miteinander kombinierbar sind.

In manchen Fällen sind auch Teile abgebildet, die nicht als Ersatzteile erhältlich sind. Diese Teile sind auf den Zeichnungen nicht positioniert. Die Darstellung dient lediglich dem Verständnis und erzeugt keinen Anspruch auf das abgebildete Teil.

Jede unerlaubte technische Änderung (z.B. der Verbau von ungeeigneten Ersatzteilen, Zubehörteilen und Komponenten) Ihrer Wacker Neuson-Maschine führt zu einer wesentlichen Beeinträchtigung der Betriebssicherheit.

Die Betriebssicherheit wird nur durch die Verwendung von Original-Ersatzteilen und von uns freigegebenen Anbaugeräten gewährleistet.

Wir übernehmen keine Haftung für Schäden, die durch eine technische Änderung oder die Nicht-Verwendung von Original-Ersatzteilen verursacht werden.

Hinweise für „rechts“ und „links“ bzw. „vorne“ und „hinten“ beziehen sich auf die Fahrerposition in Vorwärts-Fahrtrichtung.

## Aufbau der Ersatzteillisten

- 1 Baugruppenbenennung, bzw. Bezeichnung der Ersatzteilbuch-Seite
- 2 Weiterführende Informationen zur jeweiligen Artikelnummer. Dies kann z.B. folgendes beinhalten:
  - <1234567890 oder A:1234567890 → gültig **bis** Seriennummer
  - >1234567890 oder E:1234567890 → gültig **ab** Seriennummer
  - Option → dieses Material wird nur für eine bestimmte Option benötigt
  - Wacker Neuson Yellow → hier wird die Farbe des Ersatzteils angegeben, falls es in unterschiedlichen Farben verfügbar ist.
- 3 Zeichenfläche: hier werden alle Teile abgebildet, die in der jeweiligen Baugruppe vorhanden sind
- 4 Sind Ersatzteile umrandet und mit einer eigenen Positionsnummer versehen, so bedeutet das, dass es sich um bestellbare Kits handelt. Bei einer Bestellung der entsprechenden Positionsnummer werden alle Teile geliefert, die sich innerhalb des Rahmens befinden.
- 5 Hier befindet sich die Artikelnummer der Bildtafel. Achtung! Diese Artikelnummer ist nicht bestellbar!
- 6 Vertriebsbezeichnung der Maschine
- 7 Seiten- bzw. Kapitelangabe
- 8 Positionsnummer
- 9 Artikelnummer
- 10 Material-Bezeichnung
- 11 Verbaute Menge
- 12 Mengeneinheit
- 13 Hier wird die jeweilige Option mithilfe eines Piktogramms abgebildet

# Informations générales sur le catalogue de pièces détachées

## Généralités

Pour commander des pièces de rechange, il convient de veiller à la disponibilité de l'ensemble des données sur la machine.

Il s'agit notamment du nom du modèle, du numéro de série et de l'année de fabrication. Pour commander des pièces de moteur ou d'essieu, le type et le numéro de série des composants sont également nécessaires.

De plus, les informations suivantes sont indispensables : le numéro d'article et le numéro de repère.

Le numéro de série est frappé dans le châssis. Il se trouve également sur la plaque signalétique. Il convient d'indiquer l'intégralité du numéro de série.

Dans le cadre du développement technique, nous nous efforçons d'améliorer et d'optimiser constamment nos produits. Il est donc possible que les illustrations dans le catalogue de pièces détachées diffèrent de la version réelle.

Nous nous réservons le droit de modifier les pièces détachées à tout moment. Cela concerne aussi bien la quantité de pièces détachées que la réalisation technique.

Pour obtenir les toutes dernières informations sur la machine, nous vous prions de bien vouloir contacter l'un de nos distributeurs.

Les spécifications techniques, les dimensions, les poids et les quantités de pièces de rechange sont donnés à titre indicatif. Sauf erreurs.

La machine sur l'illustration en couverture peut présenter des options. L'illustration n'est pas contractuelle pour toutes les versions.

La société Wacker Neuson est autorisée à publier du matériel protégé par le droit d'auteur, par ex. celui de la société Perkins Engines Company Ltd.

Le nombre de pièces de rechange spécifié dans le catalogue se réfère à la quantité intégrée à ce point.

Ce catalogue de pièces détachées présente les options disponibles de série pour le véhicule. Il se peut donc que les options illustrées soient absentes de votre machine. Toutes les options illustrées ne sont pas disponibles dans l'ensemble des pays/régions.

Les options peuvent en partie être intégrées ultérieurement. Notez cependant qu'il n'est pas possible de combiner toutes les options.

Dans certains cas, les pièces présentées ne sont pas disponibles comme pièces de rechange. Ces pièces ne possèdent pas de repère sur les illustrations. La représentation sert uniquement à la compréhension et n'entraîne pas d'exigence quant à la pièce illustrée.

Toute modification technique non autorisée (par ex. l'installation de pièces de rechange, d'accessoires ou de composants inadaptés) de votre machine Wacker Neuson porte une atteinte sérieuse à la sécurité de fonctionnement.

La sécurité de fonctionnement est garantie uniquement par l'utilisation de pièces de rechange d'origine et d'équipements approuvés par nos soins.

Nous déclinons toute responsabilité en cas de dommages engendrés par une modification technique ou la non-utilisation de pièces de rechange d'origine.

Les remarques « droit » et « gauche » ou « avant » et « arrière » se rapportent à la position du conducteur en marche avant.

## Structure du catalogue de pièces détachées

- 1 Dénomination des ensembles, ou désignation de la page du catalogue de pièces détachées
- 2 Informations supplémentaires pour chaque numéro d'article. Cela peut par ex. inclure les éléments suivants :
  - <1234567890 ou A:1234567890 → applicable **jusqu'au** numéro de série
  - >1234567890 ou E:1234567890 → applicable **à partir du** numéro de série
  - Le choix → de ce matériau est nécessaire uniquement pour une option particulière.
  - La couleur de pièce détachée indiquée est le jaune Wacker Neuson →, si elle est disponible dans d'autres couleurs.
- 3 Zone de dessin : là, toutes les pièces sont représentées dans leur ensemble respectif
- 4 Si les pièces de rechanges sont entourées et annotées d'un numéro de repère, cela signifie qu'elles peuvent être commandés en kits. En commandant avec un numéro de repère, toutes les pièces qui se trouvent dans le cadre sont livrées.
- 5 Là se trouve le numéro d'article du dessin. Attention ! Il n'est pas possible de commander ce numéro d'article !
- 6 Désignation de vente de la machine
- 7 Informations page ou chapitre
- 8 Numéro de repère
- 9 Numéro d'article
- 10 Désignation article
- 11 Quantité installée
- 12 Unité de quantité
- 13 Là, chaque option est représentée par un pictogramme

## General information about spare parts manual

### General

When ordering spare parts, care must be taken to ensure that all information about the machine is complete.

This includes the name of the model, the serial number and the year of construction. In the event of orders for motor or axle parts, the type and serial number of the components are also required.

The following details are also necessary: material number and position number.

The serial number is stamped on the machine chassis. It is also located on the type label. The serial number must be given in full.

In the course of technical development, we work continuously to improve and optimize our products. For this reason the pictures in the spare parts manual can sometimes deviate from the actual model.

We reserve the right to make changes to the spare parts at any time. This applies to the specified quantity of spare parts as well as to the technical model. In order to provide the latest information about the machine, we ask you to contact the appointed dealer.

Technical information, dimensions, weights and the given quantity of spare parts are not binding. Responsibility for errors or omissions not accepted.

The cover features the machine with possible optional equipment. The representation given is not binding for the actual model.

Wacker Neuson is authorized to publish copyright-protected material, for example that owned by Perkins Engines Company Ltd.

The number of spare parts specified in the manual refers only to the quantity installed at this point.

This spare parts manual shows options that are available for the vehicle direct from the factory. For this reason, options might be shown that are not compatible with your machine. Not all the options shown are available in all countries/regions.

Some options can be retrofitted. However, please note that it is not possible to combine all options with each other.

In some cases, parts are shown that are not available as spare parts. These parts are not itemized in the drawings. The portrayal is for clarification only and does not mean that the part shown can be ordered.

Any unauthorized modification (e.g. installation of unsuitable spare parts, accessory parts and components) in your Wacker Neuson machine can severely impair operational safety.

The operational safety is only ensured when original spare parts and additional devices that we have approved are used.

We do not accept liability for damage incurred due to a technical change or non-use of original spare parts.

Mentions of “right”, and “left” or “front” and “rear” are made from the position of the driver in a forwards direction.

## Structure of spare parts catalogue

- 1 Name of group of components or reference to page in the spare parts manual
- 2 Additional information about the relevant article number. This can include the following for example:
  - <1234567890 or A:1234567890 → applicable up to serial number
  - >1234567890 or E:1234567890 → applicable from serial number
  - Option → of this material is required only for a specific option
  - Wacker Neuson Yellow → here the colour of the spare part is provided if it is also available in other colours.
- 3 Drawing area: this shows all parts that exist for the relevant group of components
- 4 If spare parts are surrounded by a frame and have their own position number, this means that they can be ordered as a kit. When ordering the respective position number, all parts are delivered that are shown inside the frame.
- 5 This is where you will find the article number of the plate. Caution! This article number cannot be ordered!
- 6 Sales designation of machine
- 7 Reference to page or chapter
- 8 Position number
- 9 Article number
- 10 Material designation
- 11 Amount installed
- 12 Unit of quantity
